

Ultimate Blue

Composite Solar Collector

10, 12 or 14 Tube

Combining the Best into One

Ultimate Blue is Boss Patented technology using State-of-the-Art Co-Extrusion techniques to provide a **Multi**Layered Composite Solar Strip collector with the best properties and warranty in the industry.

The **Max**Black outer layer and web material has the best UV Weathering Resistance package available. It utilizes a high matting agent to maximise Solar Absorption and has increased Toughness in order to Resist Mechanical Damage and Puncturing.

The **Ultimate Blue** inner layer has the best chemical, flex fatigue and barb sealing properties available, in addition to Enhanced Heat Conductivity.

COMPROMISE IS NOW HISTORY
